HEI Wins Consumers Energy Contract

March 25, 2008 – Holland Engineering, Inc. 's (HEI's) Pipeline Group is pleased to announce that they have been selected by Consumers Energy to provide engineering design services for the Dewitt Tie Line Pipeline Project and the associated station modifications. These facilities are being built to meet system demand in the Lansing, Michigan area. In addition to the facilities associated with the Dewitt Pipeline, HEI was also awarded the design services associated with the station modifications being constructed in conjunction with the West Oakland Pipeline extension and its new city gate. Construction of the new pipelines and facilities are scheduled to take place in 2009 and 2010. HEI's services will include both mechanical and electrical engineering design.

Based in Southfield, MI, the Pipeline Group of Holland Engineering began providing surveying and drafting services in 1977. Over the decades, our consulting firm has greatly expanded its capabilities to include the full range of customized services required by oil, petrochemical and natural gas companies across the United States, and today, we have become one of the industry's premier Midwest based consulting firms.
