Holland Engineering, Inc.
(616) 392-5938****Ryan Ysseldyke, P.E. Obtains LEED Accreditation**

February 10, 2009 – Holland Engineering, Inc. (HEI) is pleased to announce that Mr. Ryan Ysseldyke, P.S. has become a LEED Accredited Professional through the U.S. Green Building Council. Holland Engineering has long recognized the intrinsic value of low-impact site layout, natural habitat protection, community connectivity and stormwater Best Management Practices (BMPs) and has incorporated “green” practices into past design projects. Even when not required to obtain LEED certification, owners, developers and occupants are increasingly interested in implementing sustainable, low-impact projects and HEI continues to expand our LEED knowledge to further assist our clients with these efforts.

Founded in 1977, HEI provides civil and structural engineering, land surveying and pipeline consulting services to clients throughout the United States. HEI has grown from an original staff of five to over 60 engineers, surveyors and design professionals. HEI’s Pipeline Group provides a full range of engineering, project management and field services to clients throughout the energy sector.
